Parallel and Distributed Computing

Course Project – Fall 2026

For your course project, you have to write and publish a conference paper in an IEEE or an ACM conference, on a research based topic related to the Parallel and Distributed Computing.

Instructions:

- **This is a group project. Each group should have minimum 2 and maximum 3 members.**
- **The organization of the paper includes:**
  - **Title**
  - **Abstract**
  - **Keywords**
  - **Introduction**
  - **Literature Review / Related Work**
  - **Research Methodology**
  - **Experimentation / Implementation**
  - **Results**
  - **Conclusion and Future Directions**
  - **References**

Submission:

There are 4 phases of the course project.

Phase 1 – Literature Review [2 Absolutes]:

- **Select a research domain from the Google sheet whose link is given below.**

PDC BCS 7C:

https://docs.google.com/spreadsheets/d/1G4R5T0XQ1UoP2FIsOZ__8OyfsIthwlLwsyZMXjsTfv8/edit?usp=sharing

- **Write names and roll numbers of group members in the column next to the selected domain by 13 Sep 2026, 11:55 pm.**
  - **You can choose a topic which has already been chosen by another group.**
  - **You can also choose any topic from AI / ML / Cloud / IoT domains, but for that you have to get prior permission from the instructor.**
- **Download 2 research papers per member (i.e. 6 papers for a group of 3 members) related to selected domain and submit the literature review by 27 Sep 2026, 11:55 pm.**
- **In literature review, you have to identify the potential research gaps from the selected papers.**

Phase 2 – Introduction and Research Methodology [2 Absolutes]:

- **Based on the identified research gaps, you have to introduce your research work in introduction and present a research methodology to be used to conduct your research by 11 Oct 2026, 11:55 pm.**

Phase 3 – Complete Paper Submission and In-Class Evaluation [4 Absolutes]:

- **Write down the experimentation or implementation details, results obtained, conclusion and future directions, abstract, keywords and references.**
- **Submit the complete research paper along-with turn-in-it report having less than 10% plagiarism by 25 Oct 2026, 11:55 pm.**
- **You should have made your own architectures, figures, fact tables etc.**
- **Submitted papers will be evaluated in class.**
- **Some or all groups will have to resubmit the papers in case of improvement suggested by the instructor.**

Phase 4 – Paper Publication in IEEE [2 Absolutes]:

- **Submit paper in the IEEE or ACM conference including members and mentor name.**
  - **Conference other than IEEE and ACM official site will not be considered.**
- **2 absolutes will be awarded for the paper publication in the IEEE or ACM before the finalization of the result.**

List of IEEE & ACM Conferences:

- **IEEE Xplore Home Page**
  - **https://ieeexplore.ieee.org/Xplore/home.jsp**
- **IEEE Upcoming Conferences:**
  - **https://site.ieee.org/sb-nhce/upcoming-conferences/**
- **ACM List of Conferences:**
  - **https://www.acm.org/upcoming-conferences**

Best of luck!
